

130th Glasgow Company, The Boys' Brigade

Company Section
April 2008

With the end of this year's activities already looming on the horizon, the Company Section has begun work in earnest ahead of this year's Annual Inspection and Display on Friday, May 16th.

The usual mix of items such as drill and bugle band will be featured, with all boys playing an important role. Everyone is warmly invited to join us on the evening.

That follows a busy month which featured an excellent second place at the District Drill Competition. Given our young squad, it was a very creditable result.

Last month also saw boys in the Company put in good performances in the district's ten-pin bowling competition, the table tennis competition, and in the five-a-side football.

As well as our display preparations, the coming weeks will see the Company taking part in further district competitions, and we are also planning to once again welcome those senior members of the Junior Section who are joining us next session for an evening's activities.
